REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-3, 5-9, 22-30, 37-49, and 51-62 are allowed over the prior art of record. Claims 4, 10-21, 31-36, and 50 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: The Applicant's arguments filed on 4/17/2006 are persuasive. The feature of independent claims 1, 22, 48, and 56 directed towards allowable subject matter are one or more mapping functions or rules to map the received data corresponding to angular displacement into movement of the cursor whereby the rules or mapping functions are dynamically modified based on the computing task or position on the display. Liechner used in conjunction with Umeda fails to teach of said dynamic mapping as claimed. While Liechner teaches of basic cursor mapping of cursor position, it fails to teach of dynamic mapping functions based on angular displacement. Therefore these features in combination with the other limitations of the claims make them allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
